Media: CG Society
Issue Date: Tuesday, 1 April 2008

The SIGGRAPH Asia 2008 Technical Papers programme will continue the tradition of excellence in computer graphics and interactive techniques that SIGGRAPH is known for and extend this world-class experience to Asia. Accepted papers will be presented at SIGGRAPH Asia 2008 and published as a special issue of ACM Transactions on Graphics. The deadline for submission to the SIGGRAPH Asia 2008 Technical Papers is 26 May 2008.

Sketches and Posters
This programme provides a broad spectrum of topics including digital art, design, science, and engineering. It encompasses ideas ranging from speculation to academic research, from industrial development and practical tools to behind-the-scenes explanations of commercial and artistic work. Be prepared to contribute your best to the first SIGGRAPH Asia! The deadline for submissions to the SIGGRAPH Asia 2008 Sketches & Posters is 13 July 2008.

Courses
The Course programme welcomes submission of printed, interactive, web-based, or CD-based courses. SIGGRAPH Asia 2008 is the perfect venue for the release of new courses. SIGGRAPH also welcomes submissions on virtual environments, appliances, and tools. The deadline for submission to the SIGGRAPH Asia 2008 Courses programme is 15 May 2008.

Art Gallery
The Art Gallery welcomes submissions of print, interactive, web-based, or CD-based works that deal with transformation, fusion, intermixing, and integration of art and science. SIGGRAPH also welcomes submissions on virtual environments, appliances, and tools. The deadline for submission to the SIGGRAPH Asia 2008 Art Gallery is 13 July 2008.

Computer Animation Festival
The Computer Animation Festival includes two main components: the official competition programme and the SIGGRAPH Asia 2008 Computer Animation Festival. The competition programme features a panel of judges who select the best works that provide insight into current trends in CG animation. The Festival is a world-class event that showcases remarkable films, from state-of-the-art experimental explorations of the latest technologies to innovative and imaginative efforts. The deadline for submission to the SIGGRAPH Asia 2008 Computer Animation Festival is 13 July 2008.

Educators Programme
The Educators Programme is designed to support educators in the field of computer graphics and related fields. It provides a forum for educators and students to share their experiences and best practices. The deadline for submission to the Educators Programme is 13 July 2008.

Emerging Technologies
This programme seeks creative and innovative projects in the field of virtual and mixed reality.
