EDUCATION NEWS

- [Siggraph Asia 2008 Opens Call For Submissions](#) [04.03.08]

Siggraph, the annual conference and exhibition on computer graphics and interactive techniques, has announced a call for submission for its inaugural Asia event, to take place December 10, 2008, in Singapore.

Students working on game-related projects may find two submission arenas -- emerging technologies and art gallery -- the most relevant, though poster session materials and technical papers are also being solicited.

The details for submitting to the conference are now available online. Though the conference is located in Singapore, submissions from all countries are encouraged and welcome.

The submission deadlines are staggered by category, beginning in late May and through June.
