SIGGRAPH ASIA Announcement

NEW HORIZONS AND BEYOND WITH SIGGRAPH ASIA 2008

Get ready for four intriguing days in Singapore! ACM SIGGRAPH, the world's largest society on computer graphics and interactive techniques, will make its debut in Asia with SIGGRAPH Asia 2008, held in Singapore, 10-13 December.

SIGGRAPH Asia will extend the horizons of innovation and excellence. It will feature creative, scientific, and educational work that provokes thought, explores ideas in innovative ways, addresses contemporary issues, interactively engages viewers in discovery, and stimulates their intellect and imagination.

INVITATION TO EXHIBIT: EARLY BIRD RATES

Thousands of international artists, innovators, producers, engineers, researchers, and academics will convene in Singapore in December.

Ensure your message is communicated in this exclusive environment. Reserve your exhibit space before 30 April to enjoy a special rate!

UNIQUELY SINGAPORE

A myriad of unforgettable experiences awaits everyone who visits Singapore.
www.visitsingapore.com

"We are very excited about SIGGRAPH Asia 2008. There has been a huge increase in the amount of high-quality technical and creative work from Asia in recent years, and this event is the perfect venue to showcase those achievements. We look forward to a vigorous intellectual and creative exchange between the established SIGGRAPH conference in the North America and this Asian edition."
— Scott Owen,
President, ACM SIGGRAPH

THE ASIA-PACIFIC MARKET

The Asia-Pacific digital media market is one of the fastest-growing economic sectors in the world, and all projections indicate that it will continue to expand at an exponential rate.

New production companies are emerging in India and China. Research institutions are growing throughout the region.

A recent study shows that Asian submitters to the SIGGRAPH Papers programme increased more than 300% from 1998 to 2005. According to [Google Trends](#), the five countries that generate the most Google searches for SIGGRAPH and related topics are all in Asia.

PROGRAMMES

SIGGRAPH Asia 2008 will be a very powerful magnet for everyone in the continent's vibrant computer graphics community. Conservative projections indicate that the first SIGGRAPH conference in Asia will be the region's largest computer graphics event ever. The key programmes are:

- Technical Papers
- Sketches & Posters
- Courses
- Art Gallery
- Computer Animation Festival
- Educators Programme
- Emerging Technologies
- Job Fair
- Exhibition
