The 5th ACM SIGGRAPH Conference and Exhibition on Computer Graphics and Interactive Techniques in Asia

Your Participation Opportunities

CONFERENCE 28 Nov - 1 Dec
EXHIBITION 29 Nov - 1 Dec
SINGAPORE EXPO

www.SIGGRAPH.org/ASIA2012
The 5th ACM SIGGRAPH Conference and Exhibition on Computer Graphics and Interactive Techniques in Asia will take place in Singapore, which was also host city of the inaugural edition in 2008, at the Singapore Expo from 28 November – 1 December 2012. Singapore Expo is a 5-minute ride away from Changi International Airport and a 15-minute drive away from the city center.

Both a conference and a trade exhibition, SIGGRAPH Asia 2012 will allow you to see, meet, and interact with the international computer graphics and interactive techniques community.

Witness the astounding advancements of computer graphics technologies, where stellar ideas blend with boundless artistry. If you've been longing to be enthralled in tangible illusion and immersed in an affluence of innovation and ground-breaking technologies, this is the place to be.

This year, the conference will introduce a new program – Technical Briefs. The other programs include Art Gallery, Computer Animation Festival, Courses, Emerging Technologies, Posters, Symposium on Apps, and Technical Papers.

The trade exhibition, held from 29 November – 1 December 2012, will offer participants from hardware and software vendors to studios and educational institutions a platform to market their innovative products and services to computer graphics and interactive techniques professionals and enthusiasts from Asia and beyond.

About ACM SIGGRAPH

The Association for Computing Machinery (ACM) SIGGRAPH sponsors SIGGRAPH Asia 2012. ACM is an educational and scientific society uniting the world’s computing educators, researchers, and professionals to inspire dialogue, share resources, and address the field’s challenges. ACM strengthens the profession's collective voice through strong leadership, promotion of the highest standards, and recognition of technical excellence. ACM supports the professional growth of its members by providing opportunities for life-long learning, career development, and professional networking.
SIGGRAPH Asia 2012’s host city is Singapore; a bustling cosmopolitan city that has what it takes to be your ideal business event destination. Creating innovative and winning solutions for any event comes from Singapore’s ability to leverage on its core attributes of knowledge and networks. The robust infrastructure in Singapore has given it the edge to become Asia’s top convention city.

The city’s strategic location as an excellent gateway to major Asian and international markets allows your business to gain a strong foothold within the industry. In recent years, Singapore has seen internationally-renowned digital media companies (Koei, Lucasfilm, Electronics Arts, Southern Star, and Ubisoft) establish a presence in Singapore, with a focus varying from content development to business development and R&D.

Local companies such as Mikoishi, Peach Blossom Media, and ST Electronics have produced original content for export and entered into strategic partnerships with international distributors. World-renowned media schools, New York University Tisch School of the Arts and DigiPen Institute of Technology, have also set up campuses in Singapore.

Coupled with the commitment of the ACM SIGGRAPH Singapore Chapter, the Singapore industry and academic institutions, as well as the support of the Media Development Authority (a dedicated government agency that champions the development of a vibrant media sector in Singapore), SIGGRAPH Asia 2012 in Singapore will be yet another vibrant and successful edition of SIGGRAPH Asia.

Join the celebrations with us in November 2012 when SIGGRAPH Asia returns to Singapore!
The thought-provoking conference programs are designed to stir your imagination, explore new ideas in innovative ways, interactively engage viewers in discovery, and stimulate collaborations between the industry and academia. Up to three Featured Speakers and several Special Sessions will also be part of the conference line-up. They complement the trade exhibition and add to the width and depth of attendees SIGGRAPH Asia attracts.

**Conference Programs**

**Art Gallery**

Exceptional digital and technologically-mediated artworks that include international projects, multimedia installations, three-dimensional pieces, and kinetic, mobile, or interactive media.

**Computer Animation Festival**

An international showcase of animation, visual effects, and visualization. The Festival includes the Electronic Theater, the Animation Theater, and Panels & Talks.

**Courses**

Instructional sessions on the most important topics in computer graphics and interactive techniques.

**Symposium on Apps**

Symposium on Apps will cover the development, technology, and marketing of mobile applications, and will include computer graphics software and hardware, games, augmented reality, location-based services, animation, and social networking.

**Emerging Technologies**

Interfaces, input devices, systems of engagement, and robotics actualize the most imaginative, innovative, and creative research in computer graphics and interactive techniques. The Emerging Technologies program provides hands-on demonstrations, supported by talks about the techniques behind it.

**Posters**

Summaries of recent achievements, theories, and other animated work-in-progress, visual effects, video games, and human-machine collaborations.

**Technical Briefs**

A new addition to SIGGRAPH Asia, Technical Briefs focuses on presentations about the intersection of graphics with audio, image, video, and HCI.

**Technical Papers**

The world’s premier forum for presentation on the most current research in computer graphics and interactive techniques.
SIGGRAPH Asia 2012 is the place to be for an extensive range of animation, art and technology displays, best practice-based education, and state-of-the-art research. The conference offers the best return on investment for your organization’s training dollars.
