At the highest level, introducing a second, page-limited, non-journal papers track at SIGGRAPH and SIGGRAPH Asia is a good idea.

Even if you disagree with creating such a program, we welcome your feedback on how such a program should be implemented.

What should the title of the program be? (We do not plan to change the title of our "Technical Papers" program.)

263 responses
If we introduce this program, we plan to enforce hard page limits. ACM’s style is somewhat compact; a typical 8-page CVPR paper is about 7 pages in the ACM style. We do not plan to include references in page counts.

Review Process: There are currently three models that our community uses for reviewing in computer graphics: A large committee with tertiaries (Technical Papers), a large committee with no tertiaries (SCA, HPG, I3D), and Associate Editors with tertiaries exclusively performing the reviews (ToG). Which model do you think would be most appropriate for this program?

263 responses
Should there be a rebuttal period?
263 responses

- Yes: 54%
- No: 21.3%
- Indifferent: 24.7%

All papers appearing in this program could be extended and submitted to any journals that accept extended conference papers. However, there is the potential to create a relationship with the (relatively new, but recently indexed) journal "Proceedings of the ACM on Computer Graphics and Interactive Techniques" (PACM on CGIT).

How important is it to your career that there is a path to a journal publication?
263 responses

- Very Important: 27.8%
- Important: 29.3%
- Indifferent: 16%
- Unimportant: 27%
How interested would you be in an option to publish an invited, extended version of this publication in the journal PACM on CGIT (perhaps with reviewer continuity)?

263 responses

![Interest pie chart]

If you answered positively to the above, how important would you rate reviewer continuity in the PACM on CGIT portion of the process?

Additional details
If this program is introduced, what sort of presentation format do you think should be used? (note: minutes below are rough guidelines.)

263 responses

- Oral (5 minute): 48.3%
- Oral (10 minute): 17.5%
- Oral (3 minute) + Poster: 15.6%
- Oral (3 minute) + Poster + Video + Oral...: 15 - 20 minute
- Oral (15 minutes) -- minimize the differ...: 17.5%
- Oral 20 minutes like any other: 34%
- Oral (20 min) (same as regular techni...: 34%

How should the deadline be offset from Technical Papers?

259 responses

- No Offset: 34.4%
- 1 week later: 21.2%
- 2 weeks later: 13.5%
- 1 month later: 4.8%
- "Substantially" later. Ideally 6 months...: 17.5%
- After the paper deadline: 34.4%
- If possible, do it after the SIGGRAPH...: 21.2%
- Completely different time of year. Thi...: 13.5%
Would you be willing to serve on the committee?

158 responses

- Yes: 57%
- No: 7%
- Maybe: 36.1%

What would be the main purpose of this program from your perspective?

258 responses

- Attractive Alternative to ML/Vision: 17.8%
- Easier to Publish a Graphics Paper: 12.4%
- Opportunities for Early Grad Students: 15.5%
- Faster Turn-around from Submission: 41.9%
- Publishing research experiments that: 15.5%
- Encourage more concise, less bloated: 17.8%
- All above. Plus 2 other benefits: 1/5
