Power Tools: Using Combined Interfaces to Build Maps on the Web

SIGGRAPH had the opportunity to chat with SIGGRAPH 2023 Labs contributor Ann McNamara to discuss her interactive workshop titled "Building Maps on the Web Using RStudio, Leaflet, and Shiny." In the interview, Ann shares insights into how advancements in spatial data and mapping methodologies are driving transformative changes in the industry.

ACM SIGGRAPH's New Early Career Development Committee Chair: Michael Collins

Michael is an Associate Teaching Professor at Penn State's School of Visual Arts. He specializes in digital art and design for the online Digital Multimedia Design program and advocates for open-source technology in online education. Michael has contributed to publications including The Routledge Handbook of Remix Studies and Digital Humanities and has been a volunteer for ACM SIGGRAPH since 2006. Welcome Michael.

ACM SIGGRAPH's New Awards Committee Chair: Jeff Jortner

Jeff is a Distinguished Member of the Technical Staff at Sandia National Laboratories, where he leads videoconferencing projects for Sandia and the Department of Energy. He has been actively involved with ACM SIGGRAPH for over three decades, holding various roles including ACM SIGGRAPH Executive Committee President and ACM SIGGRAPH Executive Committee Treasurer. His contributions demonstrate his commitment to advancing computer graphics and interactive techniques and we are excited to welcome him back to the ACM SIGGRAPH Executive Committee.

SIGGRAPH 2026 Conference Chair: Chris Redmann

ACM SIGGRAPH is thrilled to announce Chris Redmann as the SIGGRAPH 2026 Conference Chair. A familiar face across SIGGRAPH conferences, Chris has chaired several programs and contributed his own work over the years. As SIGGRAPH 2020 Immersive Pavilion Chair and General Submissions Chair for SIGGRAPH 2021 and SIGGRAPH 2022, Redmann curated years of programming across some of the conference's most popular venues.

Announcements

Bill Buxton Appointed to Order of Canada

Long-time ACM SIGGRAPH member Bill Buxton was appointed an Officer of the [Order of Canada](#) in December 2023. This is a hugely prestigious Canadian honor recognizing individuals of outstanding achievement, dedication to the community, service to the nation, and who have enriched the lives of others and made a difference. His extraordinary [career](#) in the study of human-computer interaction and design has brought prominence to Canadian computing research and Canadian technology, and he has represented Canada well on the global stage. Congratulations Bill.

ACM SIGGRAPH Underrepresented Communities Travel Grant

ACM SIGGRAPH offers support to new and existing members of the SIGGRAPH community whose potential career impact is recognized as extraordinary and who can demonstrate financial need to attend SIGGRAPH 2024. Read more about the ACM SIGGRAPH Underrepresented Communities Travel Grant [here](#).

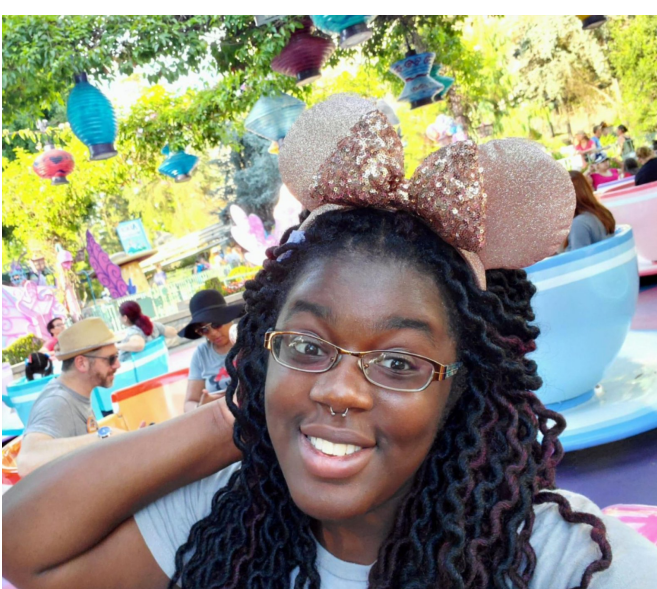

Applications Close: 13 March, 2024
Acceptances: 3 April, 2024

Apply to the ACM Women in Computer Graphics (WiGRAPH) Rising Stars Program

The WiGRAPH Rising Stars in Computer Graphics program supports women in computer graphics and interactive techniques who are early in their career. Select applicants will be paired with a mentor for SIGGRAPH 2024 and 2025. [Applications](#) are open now.

Application Deadline: 12 April, 2024
Decision Notifications: 15 May, 2024

ACM Monthly Member Profile: Amira Malcom

Meet Amira Malcom, 2025 Student Volunteer Chair and the first student to receive dual degrees from Herron School of Art and Design and Indiana University's School of Informatics and Computing. With a background in fine arts and a passion for community building, Amira has channeled her time and energy into combating the effects of gentrification by pioneering inclusive art installations and public programs. Her favorite SIGGRAPH memory was at the 2019 conference in Los Angeles where she volunteered with the Conference Apprentice Program for the Art Gallery and gave tours to various program chairs and VIP attendees, including Dr. Katie Bouman, the computer scientist who led the development of the algorithm that gave us the first-ever image of a black hole.
