

## Shape the Future of Computer Graphics at SIGGRAPH 2023

It's time — Technical Papers program submissions are now open! We want to see your high-quality research papers covering novel research in animation, simulation, imaging, geometry, rendering, haptics, visualization, immersive experiences, and more.

**Pre-recorded video presentations are no longer required and all presentations will be made live in-person in Los Angeles.**

## Announcements

### Join the ACM SIGGRAPH Digital Arts Community for the December SPARKS Session (Virtual Event):

What are the imagined flows, shapes, and spaces within the contemporary Arts, Design, and Science research disciplines? How is creativity, practice, and theory measured against the systemic societal narratives that control our world today? Will we as researchers address the future today by engaging the grand challenges that limit our full potential as an ever-evolving human species? This panel will explore the conceptual implications of a new vision for change in contemporary research practice combining the Arts, Design, and Sciences.

**Session Information:** Friday, 9 December 2022 – 9 PM GMT

Visit the ACM Digital Arts website [here](#) and sign up for the December SPARKS session [at this link](#).

### Winter 2023 Symposium on Innovation, Research & Experiences in Education

The call for participation for the Winter 2023 Symposium on Innovation, Research & Experiences in Education (SOIRE) is now open [at this link](#). The online event will be held on 27 January 2023 and is intended to provide a dynamic, conversational, and accessible venue for educators in computer graphics and interactive techniques to share and learn insights with their peers.

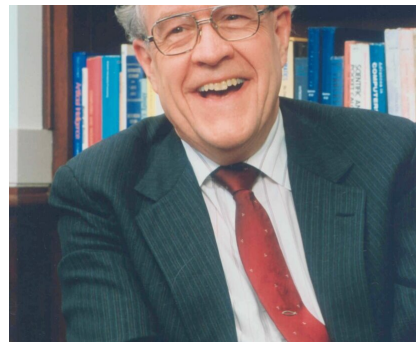

### Awards Committee Volunteer Work Opportunities

Both the SIGGRAPH Practitioner Award Committee and SIGGRAPH Service Award Committee are looking for new chairs, beginning in 2023. If you are interested in either of these positions and have strong organizational and communication skills, distinguished community standing, and comfort with presenting the award at SIGGRAPH 2023, we highly encourage you to apply.

Prior experience on the Committee is strongly preferred. Applications should be sent to [jfh@cs.brown.edu](mailto:jfh@cs.brown.edu) by 15 December 2022 with contact information and a brief description of your qualifications.

### Interested in Volunteering with ACM SIGGRAPH?

Complete the organization volunteer form today to join a team of dedicated and talented individuals. Please fill out a form [here](#) if you are interested.

### In Memoriam - Remembering Dr. Frederick P. Brooks Jr

It is with great sorrow that ACM SIGGRAPH marks the loss of Dr. Frederick P. Brooks, Jr., a pioneer in the field of computer science, a recipient of the ACM A.M. Turing Award, an inaugural recipient of the US National Medal of Technology, and member of the SIGGRAPH Academy.

### Walking in a VR Wonderland: Taking Holiday Shopping to the Metaverse

The metaverse has been an ongoing international hot topic, especially within the SIGGRAPH community. This new and exciting technology opens up many opportunities for a reimagined shopping experience during the holiday season! Now, consumers can fully immerse themselves in a retail world without even leaving their couches. Due to the societal effects of COVID-19, we have become more and more comfortable connecting with others digitally.

Here are three ways that companies used the metaverse and virtual reality to reimagine and amplify the retail experience these past few holiday seasons:

### Monthly Member Profile: Luz Jimenez Vela

This month's member spotlight features Luz Jimenez Vela, a physics PhD student, teacher assistant, and researcher at Florida State University. Luz first got involved with ACM SIGGRAPH through the Student Volunteer program in what would become the first virtual SIGGRAPH conference in 2020. A star nurseries doctor in the making, Luz is currently conducting research on star formation in which she analyzes data from simulated molecular fields as they collapse to form pre-stellar cores.
