Taking place from 12-15 December, SIGGRAPH Asia 2023 welcomed 8,000 attendees, 30 exhibitors, and 700 contributors from more than 40 countries to Sydney, Australia. This year's annual conference featured a stellar ensemble of Oscar-winning icons and innovative tech leaders redefining the boundaries of the animation landscape over the four-day event.

Announcements

Call for Candidates for the 2024 ACM SIGGRAPH Outstanding Service Award

The Outstanding Service Award is presented annually to recognize a career of outstanding service to ACM SIGGRAPH by a volunteer. It recognizes an individual who has given extraordinary service to ACM SIGGRAPH, both in the trenches and in positions of more responsibility or visibility, over a significant period of time.

This award includes a lifetime ACM SIGGRAPH Pioneers membership. For more information and the list of past awardees, please visit [this page](#). If you are interested in submitting a candidate please [contact Scott Owen](#), Chair of the Outstanding Service Award Committee. The deadline to submit candidates is 31 January 2024.

Apply to the ACM Women in Computer Graphics (WiGRAPH) Rising Stars Program

The WiGRAPH Rising Stars in Computer Graphics program supports women in computer graphics and interactive techniques who are early in their career. Select applicants will be paired with a mentor for SIGGRAPH 2024 and 2025. Applications open in early 2024 and more information can be found [here](#).

Winter Symposium On Innovation Research & Experiences in Education (SOIREE)

The third annual Symposium On Innovation Research & Experiences in Education, sponsored by the ACM SIGGRAPH Education Committee, will be streamed live through Zoom and YouTube platforms Friday, 26 January 2024 at no charge to participants. Click [here](#) for more information and email any questions you may have to [Nick Jushchysbyn](#).

In Memoriam: Remembering Vera Molnár

ACM SIGGRAPH regrets to announce the death of Hungarian-French artist Vera Molnár. Awarded the 2022 ACM SIGGRAPH Distinguished Artists Award for Lifetime Achievement in Digital Art, Molnár co-founded two groups focusing on the use of technology within the arts: Groupe de Recherche d'Art Visuel and Art et Informatique. Her work is featured in major solo and group exhibitions around the world including the Museum of Modern Art, the Victoria and Albert Museum, and the Centre Pompidou.
